Basic TAS Facts

- TAS - Treasury Account Symbol
 - aka TAFS, fund symbols, appropriation accounts, and receipt accounts
- Format Standardization - move to Component TAS
 - Expansion of Dept Agency Codes from 2 to 3 digits
 - Expansion of Fiscal Year into 3 separate fields
 - Elimination of Standard Subclasses – replaced by BETC

TASs are displayed in the 2-digit and 3-digit formats on the SAM Public web site. Note that Treasury applications may limit the format that financial transactions may be submitted in.

For more information, please refer to:

https://www.fiscal.treasury.gov/fsservices/gov/acctg/cars/ref_guidance.htm

Component TAS Structure

Component Name	Acronym/ Field Length	Definition
1. Sub-Level Prefix Code	SP/2	A programmatic breakdown of the account for Treasury publication purposes.
2. Allocation Transfer Agency Identifier	ATA/3	The Agency identifier of the agency receiving funds through an allocation transfer.
3. Agency Identifier	AID/3	Represents the department, agency, or establishment of the U.S. Government that is responsible for the TAS. Used in conjunction with the main account code.

- Current standard sub class codes will be replaced by a BETC.
- Agency Identifiers are 3 digits in length.

Component TAS Structure (cont'd)

Component Name	Acronym/ Field Length	Definition
4. Beginning Period of Availability	BPOA/4	In annual and multi-year funds, identifies the first year of availability under law that an appropriation account may incur new obligations.
5. Ending Period of Availability	EPOA/4	In annual and multi-year funds, identifies the last year of funds availability under law that an appropriation account may incur new obligation.
6. Availability Type Code	A/1	Identifies no-year accounts "X", clearing/suspense accounts "F", Treasury's central summary general ledger accounts "A".

- BPOA and EPOA must be the entire 4-digit year (Ex: 2012).
- Period of Availability (BPOA/EPOA) and Availability Type Code are mutually exclusive.

Component TAS Structure (cont'd)

Component Name	Acronym/ Field Length	Definition
7. Main Account Code	MAIN/4	Identifies the type and purpose of the fund.
8. Sub-Account Code	Sub/3	Identifies an available receipt or other Treasury-defined subdivision of the main account.

- Main Account Code remains the same.
- Sub-Account Code is a mandatory field.

WHAT IS A BETC?

- BETC is the acronym for Business Event Type Code that refers to the data element (up to 8-characters) that indicates the type of activity being reported for a specific transaction (e.g. receipt, disbursement, payments, collections, borrowing, etc.)
- A BETC must accompany the Treasury Account Symbol (TAS) and the dollar amount in order to classify the transaction against the Fund Balance With Treasury.
- The BETC replaces transaction codes and standard sub-classes but at a more intuitive level of detail.
- For more information please refer to:
https://www.fiscal.treasury.gov/fsservices/gov/acctg/cars/ref_guidance.htm
